## AIR - ROBETA'S NEW MODEL WITH ULTRA LIGHT FURNITURE

Vans with luggage and full tank quickly reach the upper limit of the permitted total weight. Heavy weight also means more consumption and more emissions.

Robeta's solution: Production of furniture made of stable material from recycled bottles, which is veneered with HPL panels. The result: **up to 300 kg less weight**. As with the classic Robeta vehicle, the new material is clogged and glued together. Loose screws and creaking furniture are a thing of the past.

Feel the difference

# Feel the difference ...

## Discover a new world, a world of travel

With Robeta, you feel that it is simply different as you enter the vehicle. Due to its modern design, smart and sophisticated ideas, the interior is rounded off with an emphasis on playful details. In addition, durable workmanship is taken for granted.

Robeta pays particular attention to the use of quality materials. The 25mm thick Armaflex insulation, ensures a comfortable indoor climate both in summer and winter. The furniture is

coated with a 0.6mm scratch resistant HPL layer. The ceiling, rear and side doors are lined with quality synthetic leather.

Based on these details, your Robeta will be a long-term companion in everyday life.

OUR ADVANTAGES

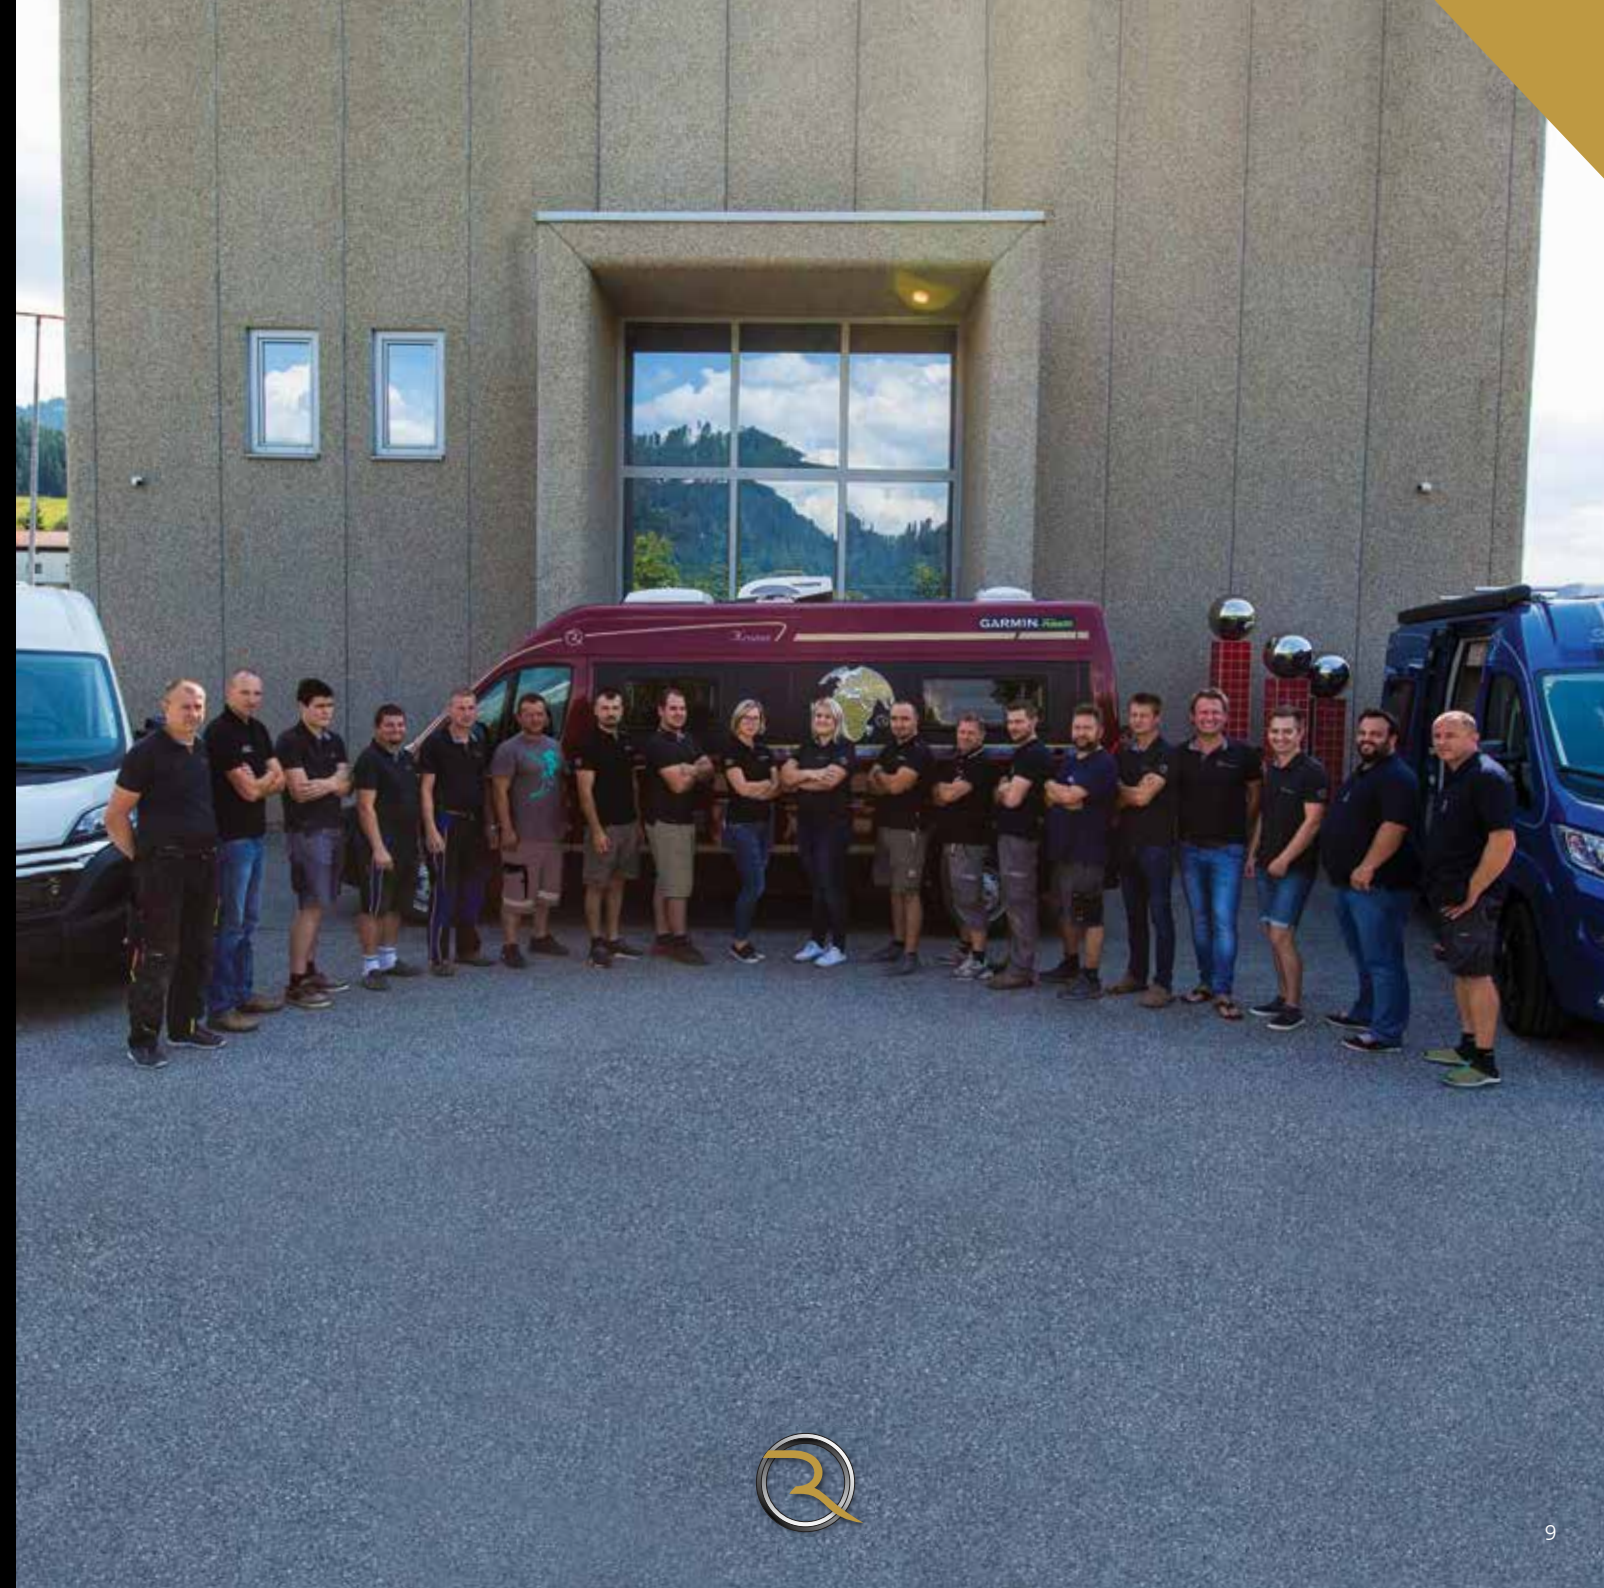

# Robeta

Robeta came from the idea of making travel vehicles that stand out from the rest in design and higher quality. In 2011, Robeta was founded in Slovenia in connection with passion for comfortable travel.

Initially, Robeta designed interiors for well-known manufacturers. Then they started developing own designs. Now, demanding Robeta customers can find 5 exciting models with several basic floor plans, as well as a revolutionary, optional ultra-light furniture (AIR) concept available from spring 2020.

Check our manufacturing process with focus on detail and quality materials. Whether you are looking for a vehicle for trips to European capitals or prefer to travel to the mountains or the sea or even want to drive off-road - our vehicles will meet your expectations in every situation.

# Manufacturing

Development of each model from the first idea to the final product happens in Robeta. The creation of your new Robeta is happening on several levels, with a competent, expert team accompanying the whole process.

A new journey is the basis for the idea of a new vehicle, which is sketched out by our designer, adding fresh ideas and innovations. Our constructors translate these ideas into a CAD program that assures high level of quality in production.

Carpenters manufacture furniture for Robeta vehicles using state-of-the-art CNC machines. Carved pieces of furniture are hand-assembled by our staff into furniture.

Each vehicle goes through a final quality inspection before handover. With a plaque signed by the constructor, we guarantee that your motorhome is manufactured with care, precision and love.

# Innovative & intelligent: Garmin Fusion

Control functions such as interior lighting, adjust heating, check fresh water or pull out the awning with the screen. All this and more is made possible with the “Intelligent-Camper” system

Robeta aims to develop an intelligent vehicle with Garmin Fusion.

All systems in Robeta vehicles, such as heating and lighting, are controlled via a central Garmin display that also serves as an audio navigation system. The innovative “Intelligent Camper” system is now available in all Robeta vehicles.

Robeta is a pioneer in the van segment with the innovative Intelligent Camper system.

The intelligent Robeta vehicle could be yours too!

- KITCHEN BLOCK WITH TWO BIG DRAWERS AND AN INTEGRATED CUTLERY DRAWER
- HANGING CABINETS WITH A HIDDEN CLOSING SYSTEM
- GLASS CABINET IN THE KITCHEN BLOCK
- HANGING TABLE IN THE DINING ROOM

HELIOS style INT4

# Dionysus 5,41m WITH REAR COUCH

It is the ideal travel vehicle for 2 people who do not want to give up the generous offer of spaciousness and comfort. Due to the flexible bed in the rear of the vehicle which can be converted into a seating position, the vehicle becomes a four-wheeled apartment.

DIONYSUS style INT5

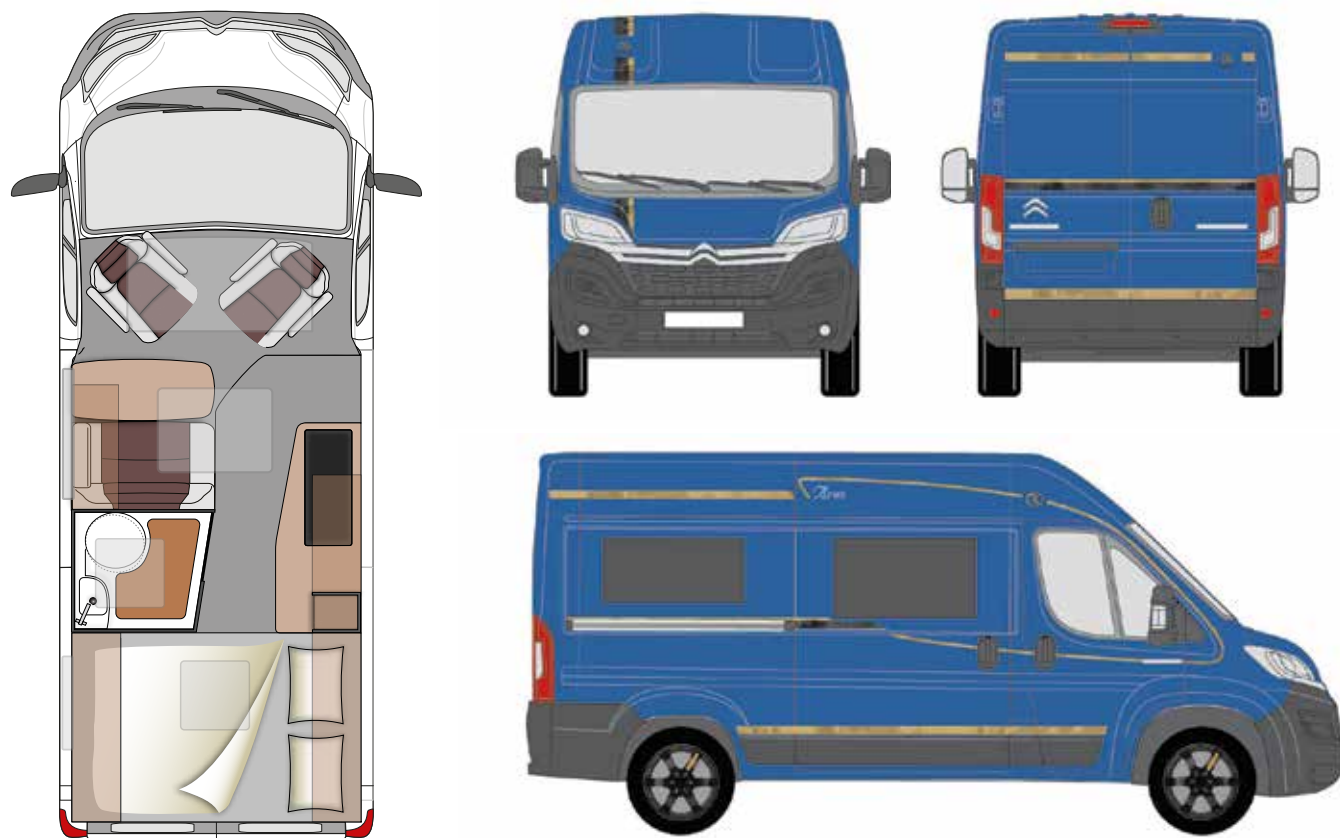

# Ares

NEW 2020 - 5,41m, 4 SEATS

With its compact exterior dimensions, 4 seats and thoughtful space distribution, Ares is the perfect, compact and versatile vehicle for everyday life and your exploratory wanderings.

Optionally, Ares is also available as a Family variant with 4 beds (double bunk bed).

ART style INT3

# Helios<sup>5,99m, CROSS BED</sup>

With its 5.99 m length, Helios is not only a compact car, but also offers plenty of space. Due to the comfortable double seat bench and swivel seats in the front, up to 4 people can travel.

Only a handful of vans below 6 m in length can offer a 1.50 m wide bed with plenty of room for reading, dreaming and relaxation. Helios offers plenty of storage space. Based on the individual wishes of customized accessories, it is a true versatile family vehicle.

Helios is available in two variants: Family with 4 beds (double bunk bed) and For Two.

HELIOS style INT4

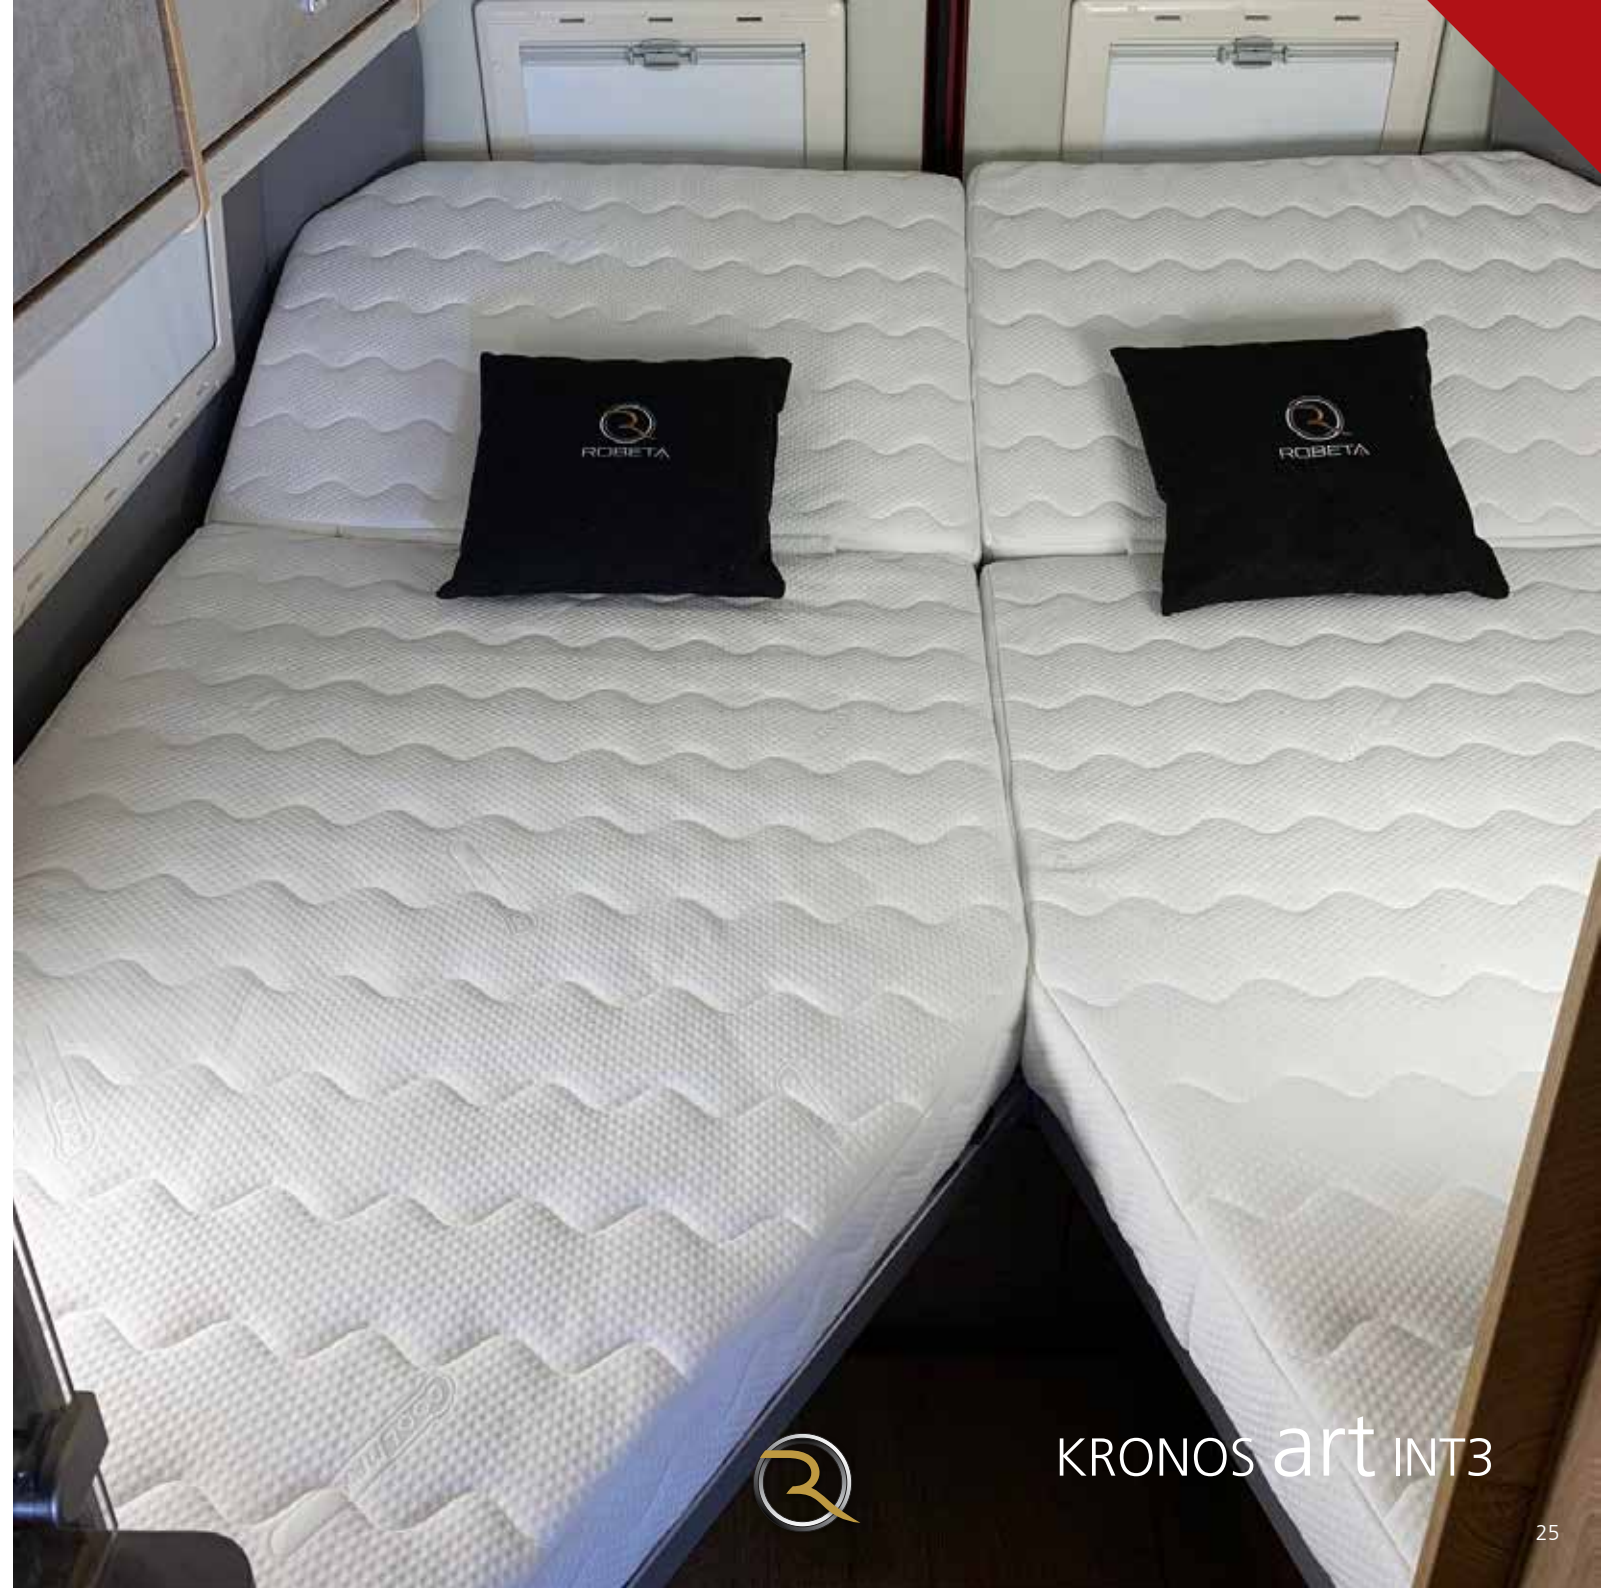

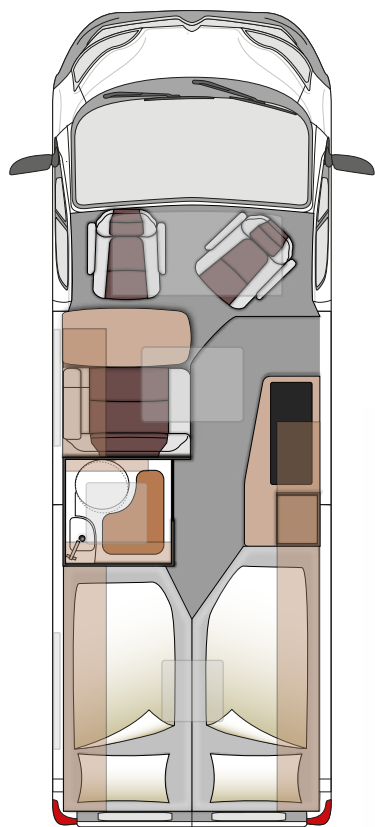

# Kronos

NEW 2020 - 5,99 m, LONGITUDINAL BED

Kronos is the variant with consecutive beds of 5.99 m in length, offering complete comfort with 195/185 cm x 187 cm beds. With 4 seats, this vehicle is a faithful companion to your travels and everyday life. Enter and enjoy the freedom to travel.

Optionally, Kronos is also available as a For Two variant.

KRONOS art INT3

# Apollo

With its 6.36m in length, Apollo is the top model of Robeta vehicles. Due to its single and adjustable lath floor, it convinces customers who pay special attention to sleeping comfort and large single beds (2.10m). The luggage compartment under the bed can be flexibly divided and adjusted to suit your luggage and needs.

Optionally, Apollo is available in two variants: Family with 4 beds (double bunk bed) and For Two.

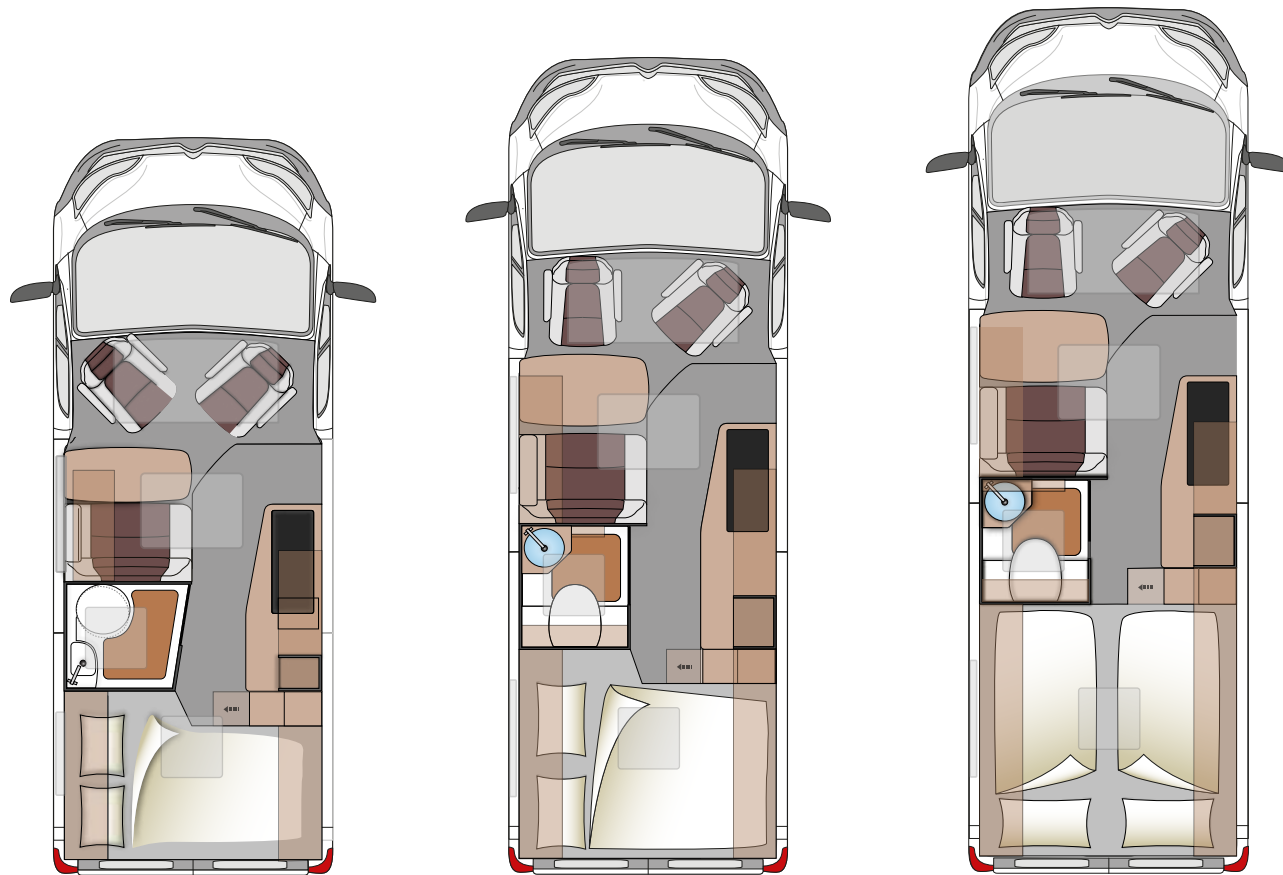

APOLLO art INT3

# Family<sup>ARES, HELIOS, APOLLO</sup>

With the Family option (double bunk bed) and an extra bed, vehicles Robeta Ares, Helios, Kronos, Apollo become family vehicles. Robeta does not require an additional ladder due to its sophisticated staircase/cabinet system.

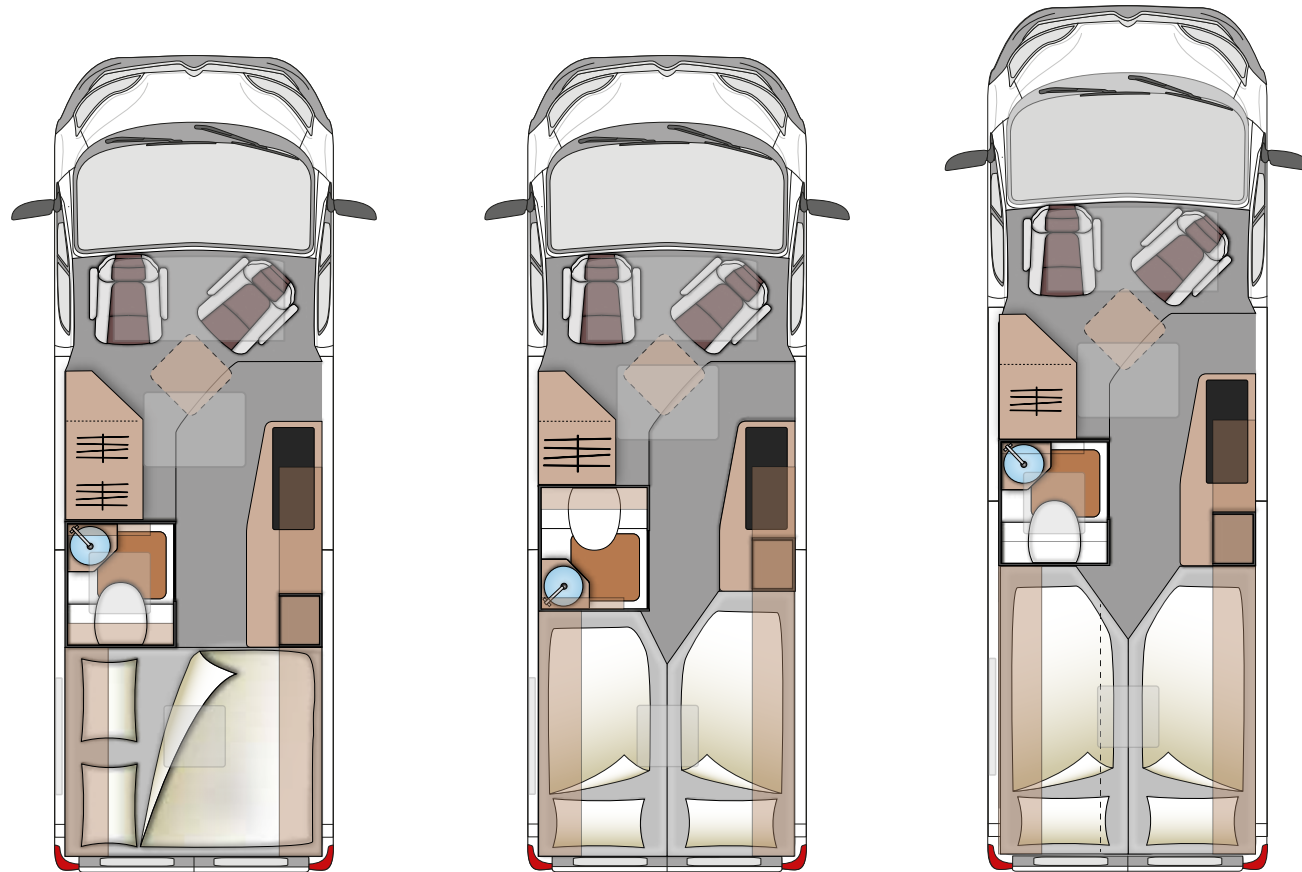

HELIOS DUOBETT style INT3

# For Two HELIOS, KRONOS, APOLLO

The "For Two" option is without a double bench seat in the front and therefore offers an extra luggage space and a large closet. "For Two" option converts models Helios, Kronos or Apollo into a luxurious and spacious oasis for two.

# Custom

Your wishes are particularly important to us at Robeta.

Our team of top designers, constructors and craftsmen brings your ideas and aspirations to life. Regardless of whether you need a vehicle specifically for sports, pets, hobbies or other activities. We will create the perfect vehicle that is tailored to your needs. We can adapt your vehicle on any chassis, in any variant (4x4 version) - everything is possible.

Tell us your wishes and we will create your dream vehicle.

## Materials and colors

At Robeta, customer is still the king, as they can decide whether they want an upgrade on the dynamic Frenchman - the Citroen Jumper or the temperamental Italian Fiat Ducato. The buyer has the choice of different exterior colours and furniture combinations as well as upholstery colours.

For enthusiasts, Robeta vehicles are also available with higher quality leather trim.

With the standard version, the customer can choose from 4 different foils for the exterior of the vehicle.

Technical guidelines  
**Robeta vans have a 7-year warranty on sealing and furniture (annual inspection) as well as 24-month vehicle guarantee, individual manufacturers' guarantee for technical devices.**

The indication of dimensions and weight ranges from +/- 5% due to the use of natural raw materials. By installing, upgrading and modifying Robeta vehicles in unauthorized workshops, you compromise your safety and run the risk of losing your general operating license and Robeta warranty. For this reason, repair or upgrading should be carried out by an authorized Robeta specialist broker or dealer. Subsequent, technically feasible alterations and upgrades require additional installation and require additional costs. As a last resort, additional desired combinations may be mutually exclusive. Robeta reserves the right to make technical changes to its construction, colour and fittings to the extent that this brings technical improvement. The content corresponds to the state of print preparation in January 2020. The price list is valid from 01/01/2020. All prices are in euros. Photos in the Robeta Catalog may show optional equipment. We are not responsible for potential grammatical and printing errors.

Explanation of Weight Specification for your Robeta Vehicle: The Legislature stipulated that the weight of the vehicle should be stated as "the weight of the vehicle in running order" and as "the permissible total weight". (EEC Guideline 92/21) Weight of the vehicle ready to drive under EU Regulation No. 1230/2012/EEC: Vehicles with standard equipment according to the manufacturer, including the driver (75 kg), 90% filled fuel tank and fresh water.
